EVENTS GALORE AT BDM INTERNATIONAL

Project on zero wastage of food

Keeping this objective in mind B.D.M. International in partnership with 'Kolkata We Care' successfully launched the initiative: Sustainia- Pilot Project On Zero Wastage Of Food! The 'Food ATM Story of B.D.M.I' under the leadership of principal Madhumita Sengupta initiated an awareness campaign on August 23. The aim of the project was 'Scrap it! Don't trash it! Zero Hunger: Access to excess food and No wastage of food-that motivated food warriors towards saving food and reducing wastage.

The event was graced by the members of 'Kolkata We Care' namely Imran Zaki, Asif Ahmed, Anita Brooks, Dr Jasmjit Singh Arora, Rajendra Singh, Khadija Ahmed and Suman Sood.

The year-long calendar for Sustainia embraced 7000+ students ranging from the pre-primary section to class XII. The grand event commenced with the school choir setting a befitting prelude to the show. The song sung by them 'No Hunger Anymore' emphasized the mission of the students in taking the project across all levels. The enactment by the kindergarten students 'Bigad Gaya Tu' was truly the show stopper. The dance and mime performance by the students kept the audience enthralled. The mime presentation was thought provoking and insightful, harnessing the power of silence as the vehicle of powerful social thought.

The effort was to create an impact through positive measures like poster making, logo/ badge creation, food lab, food drive, food warriors, peer leadership, tiffin planning, house point system, proper storage of food, portion control, recipe remix and repurposing of leftovers.

The young enthusiasts of the Interact Club of B.D.M.I made a presentation where the action plan for 'Zero Wastage of Food' was shared with one and all. This unique and innovative initiative won everyone's accolades, as B.D.M. International also extended a humble request to the parents to be partners in this noble initiative.

The endeavour invited individuals to collectively reduce food waste, contributing to environmental sustainability, economic savings, and food security.

where the action plan for 'Zero Wastage of Food' was shared with one and all. This unique and innovative initiative won everyone's accolades, as B.D.M. International also extended a humble request to the parents to be partners in this noble initiative.

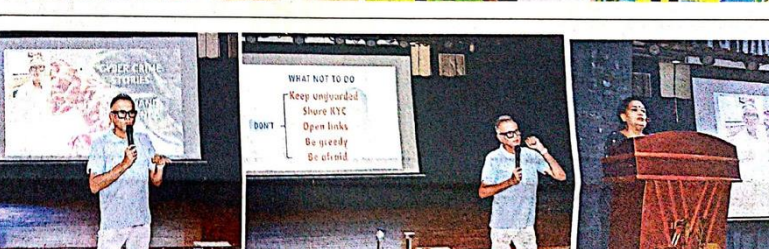

Workshop on self-defence

"Process of self-defence starts in the mind." - Kalyan Mukhopadhyay, Retd. IPS

On September 28 a workshop was organized at B.D.M. International to impress upon the students the importance and techniques of self-defence. The workshop was conducted by Kalyan Mukhopadhyay, Retd. IPS, Kolaj Sengupta (actor, author, martial artist) and Dishani Dhar (actor and martial artist). Mukhopadhyay spoke about the importance of self-defence in the present scenario and mentioned that self-defence comes in three steps: 1. knowledge 2. practice 3. conviction. He began the workshop with interesting anecdotes which helped to impress upon the students that the basis of self-defence lies in having faith in oneself. It was followed by reading excerpts from the book 'I too Can' by Kolaj Sengupta. The book contains scenarios of attacks and techniques of self-defence. The techniques were demonstrated by previously recorded videos as well as live demonstrations by Sengupta and Dhar. The workshop was interactive and gave an opportunity to the students to practice certain techniques of self-defence with Kolaj Sengupta and Dishani Dhar.

The highlight of the session was the launch of the book 'I Too Can' by Kolaj Sengupta. The book was launched in the form of an e-book at B.D.M. International by Madhumita Sengupta, principal, B.D.M. International and would be made available to readers all over the country. Sengupta said, "Our children need the strength of mind and knowledge of technique to combat anyone who attacks them." The book could act as an appropriate means for the same.

By the end of the workshop the students left feeling more confident about themselves by learning techniques which would surely be useful to them.

Workshop on cyber safety

To educate oneself about the threats of the cyber world, BDM International organised a significant workshop on cyber safety by Kalyan Mukhopadhyay, Retd. IPS. The workshop deeply focused on the issues of cyber security with each passing day. As internet has started to rule the society, it has become a necessity with each passing day. Into the pages of the world wide web. But least people know, the dangers which are just a click away. The cases of Mukhopadhyay called out the issues and informed them about the measures which can be taken to prevent oneself from being a victim. The workshop was undoubtedly the need of the hour as 300+ teachers and staff members followed in case of any fraud. The workshop was undoubtedly the need of the hour as 300+ teachers and staff members followed in case of any fraud. The workshop was undoubtedly the need of the hour as 300+ teachers and staff members followed in case of any fraud.

YOUNG METRO

Portion control and zero waste

B.D.M. International launches an initiative aimed at teaching students to reduce food wastage and work towards mitigating hunger. Children spread awareness through performances. Young Metro is all ears...

We took a decisive stand against food wastage, backed by the support of Kolkata We Care. This isn't just about raising awareness, it's also about igniting a real, lasting change. We're purposefully leading this change through dynamic activities, impactful food drives, and new community roles. We won't tolerate food going to waste, we're determined to shape a future where every morsel is respected and valued. Sustainia is more than an event; it's a powerful and promising movement, driven by our resolve. Together, we will make this mission unstoppable.

Shivam Dewastjee
Class XI

I'm proud to present "Sustainia," a collaborative initiative with our Interact club to combat food wastage. Our plans include initiating "Food Warriors" and community food drives with Kolkata We Care. The positive feedback affirmed our mission to inspire change toward zero hunger and sustainable practices.

Diptanshu Auddy
Class XI

We promoted food preservation and the importance of resource conservation through engaging student performances from all classes. Primary students showcased creativity by using recyclable materials for their costumes. The skits communicated our message, with older students delivering mimes about food waste. The audience's engagement demonstrated our success in raising awareness. Overall, we achieved our goal of fostering responsibility and teamwork, making a meaningful impact on students and the wider community.

Neon Yang Lee
Class XI

The event, Sustainia, aimed to promote food preservation and donation and involved students from Primary to Senior secondary levels. This initiative served as an invaluable learning experience for all of us, highlighting the effective measures we can take to address food waste and support those in need.

Portion control and zero waste

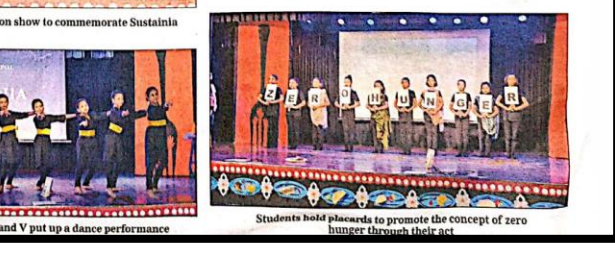

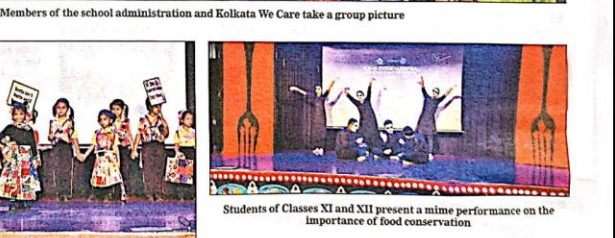

B.D.M. International launches an initiative aimed at teaching students to reduce food wastage and work towards mitigating hunger. Children spread awareness through performances. Young Metro is all ears...

The school's inter-club presented its action plan for zero food waste, outlining peer leadership initiatives, strategic tiffin planning, and even a "House Point System" to reward responsible food habits. Their presentation earned appreciation, and parents in attendance were invited to become partners in this campaign.

The event ended with a call to create a world where food waste is a thing of the past.
